1302 South 54th St Milwaukee, WI 53214

Dear Direct Supply:

I'm writing regarding the position of Software Engineer Intern, listed on your website.

First, I'd like to state that your company sounds great to work for. It sounds like employees are valued and treated as such. I'm a bit envious of the culture of your company! Natasha Tomasik has told me a bit about her experience working as a developer there and has nothing to say but praise for your company. I wish to be a part of that.

What I would bring to the table is my work experience in both software testing, and hardware testing. Along with this, I offer my current education and experience in mobile applications, software applications, and web development. This includes experience with Android development, Agile, C#, Java, SQL, ASP.NET, PHP, Angular 2, C++, and general frontend web development. My current employer has given various side projects to utilize my developer skills, even though my current role is Firmware Test Technician.

I'm eager to keep in touch regarding the position. If you'd like to discuss my experience and education, please email me at progdawn@gmail.com, or call me at 414-339-2757.

Thank you, and take care,

A handwritten signature in black ink, appearing to read "Dawn Myers". The signature is fluid and cursive, with the first name "Dawn" being more prominent and the last name "Myers" following in a similar style.
